October 28, 2026

Dear Customer,

In July of 2010, the government of the United States of America enacted HR.4173, Dodd-Frank Wall Street Reform and Consumer Protection Act. Section 1502 prohibits the use of "Conflict Metals" in manufactured goods. Advanced Circuits has received information from our raw material suppliers regarding the country of origin for the raw materials and or chemistry that they supply us for use in manufacturing printed circuit boards.

To the best of our knowledge and that of our suppliers none of the raw materials or our final products contain metals refined from the minerals columbite-tantalite (coltan and tantalum), cassiterite (tin), gold, wolframite (tungsten) or any other mineral or its derivatives determined by the Secretary of State to be financing conflict in the Democratic Republic of Congo or an adjoining country.

A copy of the CFSI reporting template for Advanced Circuits Inc. is available upon request.

Sincerely,

Joe Jaure
